

H2East Pipeline: Humber to Nottinghamshire Powering industry

H2East Pipeline
Humber to
Nottinghamshire

Consultation open: Tuesday 3rd March to Tuesday 14th April 2026

Cadent is consulting on plans for a new pipeline, the H2East Pipeline: Humber to Nottinghamshire. The underground pipeline will supply low-carbon hydrogen produced in North Lincolnshire and Nottinghamshire to key industries in the region, including steel, chemical and brick manufacturers.

By supporting the transition from natural gas to low-carbon hydrogen, the pipeline will help safeguard the future of British industry while supporting industrial decarbonisation.

Meet us at an event	Date	Time
Bert Boyden Community Centre DN40 1DS	Mon 9 March	2 - 6pm
